
Baa Discord Bot

Release 0.1

CalaMariGold

Feb 16, 2023

CONTENTS

1	Contents	3
1.1	Usage	3
1.2	API	3

Baa is an advanced Discord bot with over 1,000 commands and counting. He includes very robust security features and auto moderation, games, leveling system, economy, QoL commands, AI talking system, VC audio with Spotify integration, and much more.

Baa is an instance of [Red Bot \(latest, V3\)](#). Baa uses only approved plugins verified by the Red QA team.

Check out the [Usage](#) section for further information, including how to setup the bot for your own server.

Note: Baa is under active development.

CONTENTS

1.1 Usage

1.1.1 Invite Baa to your server

To invite Baa, you must be a \$3 or more Patron on [CalaMariGold's Patreon](#). Connect your Patreon account to Discord and join the [Shinycord](#) Discord server, Baa's home.

Once you're in the server and have your Patreon role (which should be given automatically), type the following command in the **#baas-playground** channel:

```
!botaccess addserver <server ID>
```

<server ID> is the ID of the server you own and want to invite Baa to. To get your server ID, first make sure Discord Developer Mode is enabled in Settings > Advanced, then right click on the icon of your server and click "Copy ID".

Note: If you decide to cancel your Patreon subscription, Baa will leave your server after a **1 week grace period**. This is because Baa's servers cost money to keep online and that price increases for each server the bot is on.

Note: CalaMariGold, or anyone on Shinycord will not have access to your server through Baa.

1.1.2 Getting Started

1.2 API
